APPEAL TO PRESIDENT

Roosevelt Asked to Try to Settle Telegraphers' Strike.

BUSINESS OF THE COUNTRY

Said to Be Suffering Heavy Loss Owing to the Deadlock—Both Sides to the Controversy Appear Satisfied With the Situation.

Chicago, Aug. 14.—The directors of the Chicago Board of Trade on Tuesday authorized the president of the board to appeal to President Roosevelt to use his personal influence toward effecting a settlement of the telegraphers' strike. President Sager sent the following telegram to President Roosevelt:

"The business of this great country, which is suffering such serious loss to the extent of millions of dollars per day, owing to the deadlock between the telegraph companies and their employes, demands an immediate settlement of the differences at issue so that a national catastrophe may be averted. In this great emergency we look to the chief executive of this country to take a personal hand."

REMAINS UNCHANGED.

No Important Developments in Strike Situation in Twin Cities.

St. Paul, Aug. 14.—Developments in the strike of telegraph operators in St. Paul and Minneapolis Tuesday brought practically no change other than appreciable improvement in conditions, as viewed by the companies, except that in Minneapolis the messenger boys struck.

Telegraphers on the Soo line have absolutely refused to handle commercial messages, which cuts off the entire territory covered by that line from telegraphic communication.

The striking operators asserted that the operators on the Rock Island road had taken the same position.

This brings the Order of Railroad Telegraphers into greater danger of becoming involved in the strike.

One Associated Press operator in St. Paul struck Tuesday night, as did the two men on the same circuit at Duluth and Superior.

SAID TO BE IMPROVING.

Opinion of Company Officials on the Strike Situation.

New York, Aug. 14.—From the viewpoint of the employers of telegraph operators the strike situation Tuesday night was declared to be improving hourly and the officials of both the Western Union and the Postal companies announced themselves to be more than satisfied with the progress that had been made during the day and the early hours of the night toward the restoration of wire communication throughout the country.

"It is not so much a question of restoring communication," declared one of the officials, "as re-establishing normal conditions."

They were frank to admit that some surprise was occasioned by the action of their operators in additional cities going out Tuesday, but declared that none of the day's strikes left them with an entirely crippled force.

"Enough men have remained in every office," they said, "to enable us to handle all ordinary traffic and to attend to the technical and administrative ends of the business."

These statements on behalf of the companies were declared to be based on reports from all over the country and were not confined to the situation in the general offices in New York.

The officials of the telegraphers' union, on the other hand, expressed satisfaction with the progress of the strike. They pointed to the cities in which a number of operators of both the big companies had left their keys Tuesday and predicted that their example would influence other offices in which the men have been wavering to join the ranks of the strikers.

Percy Thomas, deputy national president of the telegraphers' union, said:

"Twenty-six cities in the United States and Canada struck Tuesday. The situation is satisfactory in every way to national officers. In New York city the men are standing pat and are unaffected by the statement given out by the officials of the companies."

Wires Working as Usual.

The Associated Press leased wires were working Tuesday night as usual. The entire force of day operators in the New York office reported in the morning and remained at their keys until late in the afternoon, when a special order directing them to go out was made by the president of the local union. Three men obeyed the call.

General Secretary Russell of the telegraphers' union said at Chicago that there would be no call issued for a general strike until after the arrival of President Small in that city.

As far as the situation in New York is concerned but two new features developed Tuesday. One was a meeting

of the Wall street chapel of the Commercial Telegraphers' union at which it was decided to present a demand to their employers for a contract for a minimum weekly wage scale of \$30. The Wall street chapel has about 500 members, all operating brokers' leased wires in this city and nearby cities. The proposed contract is to run for one year, but no time limit was set for its signature.

The other development was an offer by M. J. Reagan, state mediator of the department of labor of the state of New York, to tender his offices to bring about a settlement. Mr. Reagan called on the officials of the big telegraph companies. General Superintendent Brookes of the Western Union declared his company had nothing to arbitrate and Mr. Nally of the Postal made practically the same reply.

George Ahearn, president of the local union, said that he had told Mr. Reagan that the operators were perfectly willing to submit their case to "sincere arbitration," and would readily appoint a man to act for them if the company would do the same. Thus far the employers, however, have given no indication that they will do so and maintain the position that so far as they are concerned there is nothing to arbitrate.

ROOT DENIES REPORT.

Says He Did Not Confer With Bankers in Morgan's Office.

Oyster Bay, N. Y., Aug. 14.—Secretary of State Elihu Root came to Oyster Bay late Tuesday afternoon. He spent the greater part of the day in New York. On his arrival he denied absolutely the widely published report that he had been in conference with a number of New York bankers in the office of J. P. Morgan & Co.

"There is absolutely no foundation for the rumor," he said. "I had no conference with Morgan & Co. or with any other New York bankers or with any one else."

The secretary, who was accompanied by Mrs. Root, went at once to Sagamore Hill, where he remained over night.

It is said one of the shortest and yet one of the most important political conferences of the year took place Tuesday at Sagamore Hill. The chief participants were President Roosevelt, Secretary of War Taft and Secretary of State Root.

At least, it is believed that politics formed a part of the topic of conversation among the three leading men in the Republican party, although Mr. Taft expressly declared before he went to the president's summer home that politics would be tabooed in his conversation.

At the same time he declared that this would be his last interview with the president before he left for his long trip and speaking tour, and as he is looked to declare on that tour what Mr. Roosevelt's political plans are, it is considered that even if the secretary said nothing on political matters himself, he got some very clear instructions from his chief regarding national politics and the part Mr. Roosevelt will play in the next campaign.

BOILERMAKERS JUBILANT.

Threatened General Strike on the Harriman Lines Averted.

Los Angeles, Cal., Aug. 14.—The boilermakers of the Southern Pacific are jubilant with the probable happy ending of the threatened general strike on the Harriman lines. At a conference between a committee of the boilermakers and Patrick Sheedy, local superintendent of motive power, it was agreed that all men be taken back, including the discharged boilermakers and helpers. The conference followed the resignation of Foreman Carter of the local shops, whose removal was demanded because of alleged discrimination against union men on whose account 500 men from El Paso, Tex., to Portland, Ore., are out on strike. It is expected that the agreement will be ratified by both sides and that the men will return to work all over the district. Carter resigned after the boilermakers gave the company twenty-four hours to accede to the demands of the men.

HELD ON MURDER CHARGE

North Dakota Man Accused of Killing His Nephew.

Lisbon, N. D., Aug. 14.—With all aspersions on the good name of his young wife cleared away and the belief dawning in the public mind that the evidence against himself is not as strong as was at first believed, E. S. Lovelace of Fort Ransom is lodged in the county jail under a ruling by Judge Thomas of the county court that he be held for trial at the regular term of the district court.

Lovelace has had a four days' hearing on the charge of having murdered his nephew, William Lovelace, on the night of March 8, and the court's decision was made Tuesday night.

Hotel Destroyed by Fire.

New York, Aug. 14.—The Hotel Brooklyn at Center Moriches, L. I., was destroyed by fire Tuesday night. There was 300 guests in the hotel. No one was injured.

CLEAR UP MYSTERY

Englishman Admits He Murdered a Woman.

STABBED HER IN THE BACK

Declares He Killed the Woman While Angry and Then Dismembered Her Body—Reported That Slayer Ended His Life in Prison.

London, Aug. 14.—In a dispatch from Marseilles a correspondent of the Telegraph says that Vere St. Ledger Goold, the confessed murderer of Emma Levin, has hanged himself in prison.

Marseilles, Aug. 14.—Vere St. Ledger Goold has confessed that he was the murderer of Emma Levin, a wealthy Swedish woman whose dismembered body was found in the trunks of Goold and his wife upon their arrival here Aug. 6 from Monte Carlo.

This trunk mystery created much excitement, especially as it was soon learned that the Goolds, who are English, were of good family. Their explanations of how the corpse came to be in their baggage were not convincing and the confession of Goold does not come as a surprise.

Goold made his confession to the examining magistrate. He related coolly all the details of the horrible crime. He alone had slain the woman, he declared, and it was he who cut up her body, although his wife had helped him pack it away in their baggage.

After this had been done they both agreed to journey to Marseilles, where they planned to cast the body into the sea. Mrs. Goold, whose first name is Violet, also confessed her part in the crime. She said her husband had promised to give Emma Levin the sum of \$100 for a certain reason, but she demanded \$100 more, which she wanted to give to a man friend.

Declined to Pay the Money.

To this Goold objected and said he would not pay the extra \$100. Thereupon Emma Levin abused him.

Referring to what happened next, Goold says in his confession:

"I had been drinking and becoming angry I seized a hunting knife and buried it in Emma's back. She fell dead. The next day I dismembered the body with a saw and a knife and placed the torso in a trunk and the head and legs in a valise. I only stabbed the woman once. The other wounds on her body must have been caused by shaking around in the trunk."

Goold said they carried off Emma Levin's jewels, not for their value, but in order to prevent their discovery in his apartment.

Referring to his family, Goold said his grandfather was a baronet and his father an Irish magistrate. He said he had long served secretly on the Irish land commission in Dublin. In 1893 he moved to Montreal, where he says he made a fortune. He then went to Holland, and later moved to Monte Carlo.

Mrs. Goold corroborates everything her husband said.

BARRINGTON'S LIFE SAVED

Governor Folk Commutes Sentence to Life Imprisonment.

Jefferson City, Mo., Aug. 14.—Governor Folk has commuted to life imprisonment the sentence of "Lord" Frederick Barrington, who was convicted of the murder of James McCann.

When "Lord" Barrington, who is in jail in Clayton, was notified that the governor had commuted his sentence to life imprisonment, he received the news in a sullen silence.

LAYSAN ISLAND GONE.

Believed to Have Been Sunk by Seismic Disturbances.

Honolulu, Aug. 14.—The captain of the schooner Luke C. Olson, returning from a cruise to Laysan island, reported that he was unable to find the island. It is thought that the island sunk because of seismic disturbances. It was inhabited by Max Schlemmer and family and a number of Japanese laborers.

Minnesota Red Men Meet.

St. Paul, Aug. 14.—Routine business and preliminary steps for the work that is to be undertaken characterized the first day's sessions of the annual convention of the great sun council of Minnesota, Imperial Order of Red Men, which convened in Bowly hall, Sixth and Robert streets. Altogether those qualified to attend the executive sessions of the organization number about 150, including great chiefs, committeemen and delegates.

ALL CIRCLES INTERESTED.

King Edward and Emperor William to Meet at Withelmshe.

Berlin, Aug. 14.—The utmost interest is displayed in all circles in Berlin in the coming meeting at Withelmshe between King Edward and Emperor William. Members of the government welcome King Edward's second visit to the German emperor in the course of a year as a happy augury for the future relations between the two nations and it is considered that the meeting takes on added importance for coming as it does immediately after the meeting between Emperor Nicholas of Russia and Emperor William of Swinemunde and but a few days before the conference between King Edward and Emperor Francis Joseph at Isch.

These evidences of the friendly intercourse between the several monarchs it is thought will tend greatly toward the promotion of better feeling between the people of the various nations concerned.

Steamer on Fire.

Poughkeepsie, N. Y., Aug. 14.—The steamer Adirondack caught fire Tuesday night and the vessel was run ashore below Newburgh. Other river steamers are taking the passengers off the Adirondack.

Jacob Novotny, a machinist residing
at Northeast Brainerd, was severely
injured today while trying to subdue
a wild broncho. Mr. Novotny suffered a
severe concussion of the head and sus-
tained a fracture of one of his arms.

Alderman Drexler, when asked
"what is doing?" stated that he is so
rushed with work that he does not
have time to look up the news. There
is no room in Brainerd for idle men
this season as work is plenty for all.

Secretary Freeman, of the federa-
tion of labor informed the DISPATCH
that a letter received by him from Hon.
Charles E. Vasaly, of Little Falls, con-
tained an acceptance of an invitation
from the Federation of Labor of Brainerd,
for an address from him on Labor
day, Sept. 2nd.

fell, severely bruising the fingers on
one of her hands so that she will be un-
able to use the injured member for
some days.

As Mrs. Stearns was coming from
N. E. Brainerd this afternoon she was
nearly run down by a man driving a
team. After the team had passed, the
man fell from his wagon, striking the
ground in such a manner as to render
him unconscious a condition in which he
remained when Mrs. Stearns left the
crowd which had gathered at the scene
of the accident. No particulars could
be learned.

he had known that Mr. Losey wanted
home grown tomatoes that were fully
ripe, he would have furnished them to
them August 1st from his garden on
North 4th St.

Alderman Zakariason received a let-
ter from Iron Mountain Minn., yester-
day, which contained the information
that a 10 pound son had arrived at the
home of Mr. and Mrs. Victor Frazier,
of that place which event adds another
to the list of those entitled to call the
genial alderman "grandpa." The let-
ter stated that all is now quiet at the
mines, but the guards have not been re-
moved and are on duty night and day.

The new Reilly block on South 7th

Dealers are complaining of the scar-
city of berries, saying that it is impos-
sible to obtain a sufficient quantity to
supply their customers, and yet thou-
sands of quarts could be obtained from
the country east of the city if pickers
could be had. Mrs. Joe Harrison, of
Borden Lake has canned 300 quarts up
to this time and pickled 10 quarts of the
delicious fruit last night after supper.

The once familiar but in more recent
years seldom witnessed sight of Indi-
ans on our streets, drew the attention
of many of our citizens yesterday after-
noon as a party of six bucks and squaws
went from store to store asking the
price of such goods as appealed to their
barbaric tastes. Two of the bucks
were young men and one of them led a
third, an old blind Indian by a soiled
rag to which the old man clung as
though he was afraid of getting lost.
The three squaws were young and each
bore in her arms a quiet little red skinned
papoose that looked wonderingly at
everything within the range of their
bright black eyes. The party brought
in a load of blueberries and were trad-
ing the proceeds for goods.

Train Wreck in a Tunnel.

New York, Aug. 14.—The wreck of
a freight train in the Bergen Hill tun-
nel of the Delaware, Lackawanna and
Western railway near Hoboken tied
up the entire suburban system of the
railway for several hours. A car in
the middle of a long freight train
jumped the track in the tunnel and
was followed by a score of other cars,
which piled up, completely choking
the tunnel. Thousands of suburban
residents were delayed for many
hours. No one was injured.

DEERWOOD NOTES

The last quarterly conference for the
year was held Saturday evening and in
spite of the heat Dr. Clemens spoke to
a full house. The business for the year
was discussed and plans for the future
made. The new pulpit and chairs are
a decided improvement.

C. J. Rathvon resigned as superin-
tendent of the M. E. Sunday school to
take effect immediately. A new su-
perintendent will be elected next Sun-
day to fill the vacancy. Mr. Rathvon
has been superintendent ever since he
came to Deerwood and has always
stood by the teachers and officers for
improvements and worked faithfully
for the upliftment of the cause. We re-
gret that Mr. Rathvon has decided to
take this step.

Mrs. W. E. Milberry gave a party
and dance at Cuyuna hall on Saturday
evening for the young people. A very
enjoyable time was spent.

Mrs. A. J. Vinje and Mrs. Irwin R.
Lenroot, of Superior, are chaperoning
a party of young people at a house
party at Vinje's cottage on Serpent
lake.

John Torgerson has bought C. J.
Rathvon's property which was former-
ly known as the "Bennett Place." We
understand the consideration was \$700.

We have learned through reliable
sources that Mr. Blackwood intends
moving back to Duluth with his family
thus giving up running the hotel. It
is not decided yet, who will run the
hotel hereafter.

Mrs. Anton Torgerson went to Brainerd
on Friday to take in the carnival
and spend a few days with relatives
and friends.

Mrs. E. R. Masson and children re-
turned from Illinois last Thursday,
where she has been visiting with rela-
tives and friends for the past three
months. Mr. Masson went to Brainerd
to meet them.

Mr. and Mrs. Amos Lukens spent
Sunday between trains visiting at the
homes of Wetzel's and Patterson's.

Quite a number of Brainerd people
appeared to be lost in Deerwood on
Sunday.

There were 386 cases of raspberries
shipped from here Sunday night. How
s that for Deerwood?

Mr. Seymour, a noted lecturer from
Duluth, will give a lecture for the bene-
fit of the Ladies' Aid a week from Fri-
day night. All who have had the
privilege of hearing him say he is very
fine, and congratulate the Aid that they
were able to secure him. His subject
has not been decided on yet.

The Misses Zahm, of St. Paul, are
again at Deerwood. They came up
Saturday afternoon and are domiciled
at the Tourist house, Serpent lake.

Miss Margaret Torgerson came back
from Brainerd on Thursday after
spending a few days taking in the car-
nival and visiting.

Sheriff Erickson was a Deerwood
visitor on Saturday.

Rev. Parish is entertaining his sister
and brother-in-law, Mr. and Mrs. Nap.

Rev. Osterhouse came up from Ait-
kin and took in the quarterly confer-
ence.

TERTIMONIAL

Bismarck, N. D., March 23, 1907.
To whom it may concern:

Prof. Mather has been in Bismarck for some
months past teaching dancing to both children and
adults, besides giving some pleasing and unique
parties. As an instructor Mr. Mather has no equal
in the northwest and while here he has met with re-

DOUBLE SHAFT
BEING SUNK

It is Thought This Means the
Early Working of the
Mines

ANOTHER OPTION IS GIVEN

Affairs on the Range Are Very
Active—New Drills Going
Into Operation

In addition to the test shaft being sunk at the Oreland Company's mine on Sec. 30, 47, 28, a working shaft is also being put down, which in the opinion of good judges of the situation residing here and at Deerwood, means that the shipment of ore from the Cuyuna range will soon begin.

Messrs Lum, Hartley and Seeley have given an option on the N. 1/2 of the NW 1/4 and the SW 1/4 of the NW 1/4 of Sec. 33, 47, 28 for exploration for \$24,000. Affairs on the range are very active, and many new drills are going into operation every week.

Hay Fever and Summer Colds.
Victims of hay fever will experience great benefit by taking Foley's Honey and Tar, as it stops difficult breathing immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. H. P. Dunn & Co. mwf-d-w

Juvenile Concert Band Dance

The Juvenile Concert Band will give a benefit dance at Walker hall, Thursday evening August 22nd. This is a nearly new organization of Southeast Brainerd which is under the leadership of Mr. Frank Sykora and it is said that the boys are making rapid progress and will make a public appearance at no distant date. A good time is promised at the forthcoming dance for which the tickets have been placed at the low price of 50c.

Sonoma Girl Beaten.

Poughkeepsie, N. Y., Aug. 14.—Sonoma Girl, the most famous race horse of the year, met her first defeat in the grand circuit races at the driving park Tuesday when she was beaten by Watson in the Oakland Baron stake, 2:10 class trotting for a purse of \$4,000. Breaks in the first and third heats cost Sonoma Girl the race. She was steady in the second heat and won with ease in 2:05 3/4, the fastest heat of the race. Before the race Sonoma Girl was an almost prohibitive favorite, selling for \$50 to \$17 for the field.

MUSIC AND DRAMA

The "Mayor of Tokio"

Richard Carle's musical comedy hit the "Mayor of Tokio" will be seen at the Brainerd opera house on Tuesday Aug. 27th. This widely heralded musical comedy comes here with the stamp of New York and Chicago approval.

"Thorns and Orange Blossoms"

Few plays have attained a more widespread popularity than "Thorns and Orange Blossoms," a virile comedy drama, with scenes and plot laid in England. The story was dramatized from the novel of Bertha M. Clay and is of exceptional interest to all ages and classes. The attraction comes to the Brainerd opera house, Wednesday Aug. 21st., under the direction of the Rowland and Clifford Amusement Company, with the same cast, the same scenic equipment as used in both the metropolitan runs.

Old Crime Recalled

By-Dup a blind Indian of the Mille Lacs band was in the city today and told THE DISPATCH man through interpreter A. Mark of the misfortune which befell him and many others about eight years ago. The Indians of the band to which By-Dup belonged had procured a little money and hearing the call of the white traders fire water, they lined up at his counter and called for whiskey. They were told that they could not have it but "something just as good" was offered them, bearing a label denoting that it was "Lemon Extract." The Indians purchased and drank of it freely, and for once, they were satisfied by the burning sensation produced by the alcohol—reinforced as it was by the fiery extract. All who imbibed freely were stricken with blindness, most of the number being left with impaired vision on recovering, and two never recovered their sight, while three of the number died from the effects of the debauch. The trader was sentenced to serve six months in jail.

HEARING IN EDDY CASE.

Masters Appointed by Judge Chamberlain Hear Contentions.

Concord, N. H., Aug. 14.—Three masters appointed by Judge Chamberlain of the superior court to determine the competency of Mrs. Mary Baker G. Eddy, head of the Christian Science church, in connection with a suit brought by "next friends" for an accounting of Mrs. Eddy's finances, among other things were told, in the first session of their hearing, that: The next friends brought the suit in good faith.

The famous trust deed was illegal. The next friends' counsel were handicapped by the court's refusal to grant them an allowance from the Eddy estate.

Mrs. Eddy was the victim of a series of systematic delusions.

The masters are Judge Edgar Aldrich of the United States district court; Hosea W. Parker of Claremont and Dr. George F. Jelly of Boston, an alienist. Their commission is to determine whether Mrs. Eddy on March 1 of this year was mentally competent to execute a deed transferring her property to trustees.

The masters will visit Mrs. Eddy on a date not yet decided upon.

Persons holding accounts against the Crow Wing county Drainage and Ditching company will please send bill to the undersigned before Sept. 1, 1907. H. T. Skinner, 422 4th Ave. 58t10w2

GULL LAKE
DAM PROJECT

An Interesting Account of What
the Construction of the
Dam will Mean

MONEY ALREADY APPROPRIATED

About 800 Acres of Flowage
Rights to be Secured Before
Work Begins

It is a well known fact that Northern Minnesota with its numerous lakes and healthful climate is being sought by residents of southern and eastern states as a health and pleasure resort in summer, and that the number of those who seek the health giving air of the pine-bordered lakes of Crow Wing and Cass counties is constantly increasing.

Pelican lake is rapidly becoming noted as a summer resort for fishing and pleasure, hundreds of people from Nebraska coming to this lake annually for the entire season, Chicago sends several hundred of her people to Woman lake, many of the other lakes of the county are being patronized by people from both this and other states and Brainerd has at its doors one of the finest chain of lakes in the entire aggregation of the beautiful bodies of water of central and northern Minnesota and the opportunity is now given its citizens to secure for this city a place that will bring thousands of pleasure-seekers every summer who will do their trading here.

The river and harbor appropriation bill approved March 2nd, 1907, carried an appropriation of "\$70,000 for the construction of a low reservoir dam at Gull lake (project number one,) and ditches between Gull and Round lakes and between Round and Long lakes, Minnesota, provided that the land required for the construction of said Gull lake dam and reservoir, together with any flowage rights which may be necessary shall be ceded to the United States government without charge."

This matter was taken up by the Commercial Club of this city and a committee appointed to investigate and report upon the subject and this committee made a report in substance that it would be desirable to have the dam erected by the government.

On June 23rd, 1907, Major Davenport, of U. S. engineers office was in the city and he gave assurance that it was not the intention of the government to raise the water above a normal stage and to substantiate this fact Mr. E. J. Dugan, of the U. S. engineer's corps was sent to Gull lake and after taking levels and establishing gauges confirmed the statement made by Major Davenport and has since made a report containing the following facts: The elevation of the surface of the several lakes which would be brought to a common level after the construction of the dam and the dredging were found to be:

On June 25th, 1907:—

Gull lake..... 1196.60
On July 6th and 7th:—
Gull lake..... 1196.20
Upper Gull lake..... 1196.22
Mud lake..... 1196.22
Lake Roy..... 1196.24
Three Mile lake..... 1196.29
Cullen lake..... 1196.43
Cullen lake..... 1196.51
Bass lake..... 1199.24

Thus it will be seen that on June 25th, of this year the water was up within four-tenths of a foot of the proposed maximum height that it would ever reach after the construction of the dam and a guaranty given by the government as shown in the deed should convince the most skeptical that the water in these lakes would never be raised to a point that would in any ways damage the settlers on the shores of these lakes and would not interfere with any road now used or to be hereafter made, but would be a benefit to every resident of Crow Wing and the southern part of Cass counties. The deed prepared by the government contains this clause which is a sufficient guaranty on the part of the government that the water will not be raised above the normal stage. "The said reservoir to be operated at a flowage elevation not to exceed 1197 feet above sea level as determined by the reservoir survey of 1894 and 1895.

The U. S. survey of 1894-5 placed bench marks at all these lakes for the purpose of reservoir construction and the appropriation of March last will enable the people of Brainerd to obtain what will surely be of lasting benefit to them now that the matter is so thoroughly understood and it is known that the water is not to be raised and the dredging between the lakes will hasten the drainage of so large an extent of country through the thoroughfares connecting the lakes, thus making the hitherto submerged meadows the most productive portions of the land affected.

Since this fact has become understood, many who were at first opposed to the project have withdrawn their opposition and are now the most earnest advocates of the plan. Gull lake as is well known is one of the finest in the state and has long been noted for the fine fishing it affords, many of the oldest settlers on its shores having

made a good living for their families by shipping fish and the supply seems in no wise diminished and now affords sport for hundreds of visitors who come here for that purpose alone.

It is well known that hundreds of people from Nebraska come to Pelican lake every summer and hundreds from Chicago to Woman lake, neither of which is as accessible as the lakes that would be benefitted by the construction of this government dam, for the water would be maintained at such a uniform stage that boats could readily pass from each of these lakes to the others, and these people would undoubtedly prefer to come to Hubert, Long, Round and Gull lakes, if the dam is built. A fishway will be constructed in the dam so that the fish can readily pass from the rivers into Gull lake, thus insuring an abundant supply of fish in all these lakes, and the numerous people who would spend their summers around these lakes would furnish excellent home markets for all the products which the farmers in this locality would raise. For the benefit of the farmers who want a good home market for their products, all possible support should be given to this project, as it cannot possibly do harm to any one and will be of immense benefit to the community at large.

Owners of land, where flowage rights are desired, if they do not feel able to donate the same to the government will be paid \$3.00 per acre for the flowage. This is the maximum price which has been paid for this right at any of the reservoirs heretofore built in this state. J. M. Elder has been deputized to procure these rights and has the deeds, abstracts, plats, etc., and full information of the requirements of the government can be obtained from him.

It would be well for those interested to move in the matter without unnecessary delay as when congress convenes if nothing has been done in the matter the appropriation may be withdrawn. No objections can be urged against the project and much may be said in its favor. The building of the dam would be followed by the appointment of a dam-keeper and anyone who has visited the dams of other reservoirs at Pokegama, Sandy lake and Cross lake must have noticed how the surroundings have been beautified by the keeper and the improvements made in each instance has been a beginning for a general beautifying process which has been taken up by residents, that has called the attention of visitors to the place and been productive of great good to all in the vicinity of the dams. Should the dam be constructed, who will doubt that it would result in the building of a road that would make a drive to the lake from here a matter of but little more than one hour and a delightful pleasure trip, while the business to be obtained from the crowd of summer visitors who would throng the place if it could be easily reached from this city would be of large import to Brainerd. Lakes Hubert, Baldy, Gladstone and Hunt are also in this system and a person leaving the M. & I. at Merrifield, Hubert or Smiley could board a launch and by the lakes and thoroughfares, which would be on the same level and all connected, make a delightful three days trip amid some of the most pleasing scenery to be found in the state where the fishing is unsurpassed, and where all kinds of wild game abounds. Gull river, where it debouches from the lake is clogged with drift of various kinds and when the lake is filled by heavy rains or the melting of the deep snows of winter, is slow in emptying out, but with the construction of the proposed dam the outlet would be widened out so that the surplus water would be run off quickly and the water so readily controlled that in case of flood the flowing of the meadow lands around the lake would be prevented.

Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." H. P. Dunn & Co. mwf-d-w

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Men Past Sixty in Danger

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Kidney cure I feel better than I have for twenty years, although I am now 91 years old."

WOMEN'S WOES

Brainerd Women are Finding Relief at Last

It does seem that women have more than a fair share of aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. L. Peterson, wife of L. Peterson, janitor of the Columbian block, Brainerd, Minn., says: "I have given Doan's Kidney Pills a thorough trial and believe that this remedy is the most reliable preparation that exists for kidney trouble. I used to suffer from constant dull aching in the small of my back and loins and other symptoms which plainly indicated a disordered condition of the kidneys. I decided to try Doan's Kidney Pills and got a box at H. P. Dunn & Co.'s drug store. After using a few doses I felt better and in a few days the pain and other symptoms of kidney trouble disappeared. I believe that Doan's Kidney Pills have given me a new lease of life, and am so confident that this remedy will do the same in all cases of kidney trouble that I am advising every sufferer I meet to use it."

ATTACK CASA BLANCA

Moors Again Defeated in Battle With French Forces.

WITH DAUNTLESS COURAGE

Fanatical Tribesmen Charged Repeatedly Almost to the French Guns. Europeans Blamed for the Original Uprising.

Tangier, Aug. 14.—Four thousand Moors attacked Casa Blanca Monday, but were repulsed.

The tribesmen displayed dauntless courage, charging repeatedly almost to the French guns, but a hail of shrapnel finally drove them back with heavy losses. The fire of the warships in the roadstead was terribly effective on the masses of native horsemen. The French losses were inconsiderable.

Sibouekir, governor of Casa Blanca, has been dismissed for having abetted the massacre of Europeans at that place. Sibouekir is now a prisoner on board the French cruiser Gloire.

The transport Oasis, with troops from Algiers and Oran, has arrived at Casa Blanca. Three hundred Spanish infantrymen and a squadron of cavalry have embarked at Cadiz for Casa Blanca.

The Spanish cruiser Rio de la Plata has arrived at Casa Blanca, where the sanitary situation is said to be greatly improved.

M. Malpurthy, the French consul at Casa Blanca, who is here, said that one of the causes of unrest antedating the original outbreak which resulted in the killing of eight Europeans, was agitation by certain Europeans in Morocco who are opposed to any reforms that might result in depriving them of commercial privileges unfairly obtained through favoritism. The feebleness of the Moroccan government and the notorious incapacity of the governor of Casa Blanca, Sibouekir, exercised a pernicious influence and the postponement of the sultan's visit to the south angered the tribesmen. The French consul said also that the proclamation by public orders to the peaceful natives to return to Casa Blanca and resume their vocations as France intended to protect all honest people and chastise the culpable had a good effect. M. Malpurthy said that the organization of the international police ought to be accomplished soon. He said that some tribes were today disposed to make peace terms, but were forced to fight by the revengeful Kabyles.

"I believe it is necessary," said the French consul in conclusion, "in order to teach a lasting and efficacious lesson to punish all the guilty tribesmen. Although they are not lacking in courage, they are quite without leaders or organization and absolutely incapable of a prolonged and united effort."

THE POLICY OF FRANCE.

Will Be to Merely Restore Order and Maintain It in Morocco.

Paris, Aug. 14.—Following the statement of Foreign Minister Pichon that France does not intend to embark on a conquest of Morocco or send an expedition into the interior, the semi-official Temps reiterates that the government intends to pursue only the measure necessary to fulfill the spirit of the Algeiras convention, adding:

"The German newspapers which pretend today that the convention is only a scrap of paper now, regarded it as more important in days of yore. They talk of letting us conquer Morocco and ask us in exchange to make certain compensations. They are very good but the questions are not before us officially. We shall take in Morocco with firmness but without imprudence the steps necessary to maintain order at the open ports as well as those essential to the re-establishment of European prestige—nothing less and nothing more."

Vice Admiral Philibert, telegraphing on Monday, reported that according to rumors in Mazagan, tribesmen had pillaged the town of Azemmour, but the rumor has not been confirmed.

M. Pichon, Marine Minister Thomson and War Minister Picquart conferred on the subject of Morocco and discussed the advisability of further precautionary measures.
